

NEW *Waterborne Tack Cloth*

Detro's new tack cloth was designed for waterborne finishes. It's "UNIQUE THERMOSET" tackifier virtually eliminates transfer to surfaces. The thermoset process completely encapsulates material fibers greatly reducing fabric fraying. Although designed for waterborne finishes it works on all types of automotive, industrial & wood finishes simply making it your "**BEST CHOICE**" for all of your painting applications.

Applications:

- ☆ Automotive & Industrial Painting
- ☆ Electronics... TV & Computer Monitors, Keyboards
- ☆ Critical Cleaning – Surface Preparation
- ☆ Composite Bonding
- ☆ Office & Household Furniture Dusting
- ☆ Automotive Interior Dusting
- ☆ Excellent for Cabinet Refinishing

"GO GREEN"
